

VectorLock Quick Start Guide - Manually Starting the License Server

This Quick Start Guide will walk you the process of starting the VectorLock License Server when it is not running following a restart of the system.

1. Go to the Windows Start Menu.
2. Right-click on the Computer or My Computer icon and then select Manage.
3. Click on Services and Applications (located at the bottom of the list on the left-hand side of the window).
4. Double click on Services (located at the top of the list on the right-hand side of the window).
5. Find the **VLLicenseServerService** in the list of items on the right-hand side, right click on this item and then click on Start.
